Our Story

1869

Bracklyn Street

In 1869 Frederick Parker created the business that was to become Parker Knoll from his father's factory in Bracklyn Street, London. He took pride in designing and developing the finest furniture using the best of British craftsmanship and, with the help of his sons, developed the business.

1921

Revolutionary Ideas

In 1921 the Parker's met Willi Knoll; a German fighter pilot. His revolutionary ideas to modernize comfort transformed the business. The coiled wire spring system, developed to redefine comfort, remains unchanged in many of our chairs today.

1936

Furnishing the BBC

In the 1930s Parker Knoll chairs were chosen to furnish most of the new BBC headquarters broadcasting house at Portland Place. In 1936, King Edward VIII presented his Empire Day Speech at the BBC sitting in a Parker Knoll chair.

2016

Castlewood, Nottinghamshire

With 147 years of knowledge and expertise, the Parker Knoll brand continues to grow. In 2016 the brand moved to a new purpose built state of the art manufacturing facility in Castlewood, Nottinghamshire. Parker Knoll's new home will help facilitate the brand's evolution in line with continuing to design and develop the best of British Sofas and Chairs that provide the ultimate in comfort.

1996

Number 1 Furniture Brand

1969

The Statesman

With its deep buttoned back and swivel pedestal base, the Statesman Chair was an instant hit during the 60s and 70s, quickly becoming a best seller and a modern status symbol.

1960

Railroaded Fabrics

Please note that railroaded fabrics are not suitable for curtains; please refer to the swatch books in store for further information.

Choosing Fabrics

When choosing a Parker Knoll fabric, it is advisable to think about the environmental and lifestyle factors that may impact upon fabric behaviour.

We recommend that you do not expose your upholstery to long periods of direct sunlight, as this may result in fading. Close and constant exposure to heat can also influence colouration so it is important to consider where in the room your sofa will be placed when choosing fabric.

It is also key to consider the fabric type and its associated behaviours and characteristics. A fabric with a pile direction such as chenilles or velvets may naturally flatten and be influenced by pressure or shade as the fibres change.

Appropriate care of your upholstery will ensure your velvet or chenille furniture looks fabulous and stands the test of time.

All of the fabrics within the Parker Knoll fabric collection are tested for use in a domestic environment.

You will find information regarding the fabric composition on the label on your samples or on the back of each swatch in our in store sample books.

If you have any questions or queries regarding your chosen fabrics please visit a Parker Knoll retailer or contact our customer support team who will be happy to assist you. For more information visit www.parkerknoll.co.uk.

Choosing Leather

It is important to understand the characteristics of leather when choosing to purchase this type of sofa. Leather suites are classic and timeless; the high quality, natural and hard wearing leathers we offer look great and are really easy to care for.

It is key to note that leather will move over time, and may display traces of the past such as healed scars, insect bites, growth marks and veins. These are all hallmarks of hide and in no way detract from the wearing qualities of leather.

Pattern Repeats and Widths

Please refer to the swatch books in store for further information.

Accessories

Scatter cushions are available as chargeable extras on all models. The Montana Large & Two Seater Sofas come with two standard fibre filled self-sewn scatter cushions. Cushion interiors are also available with a choice of feather filling. Cushions can be made in any fabric within the Parker Knoll collection. Scatter cushions in Classic fabrics come self-piped.

We have tried to be as accurate as possible in the presentation of information. However, some dimensions shown should be regarded as approximate only, due to the nature of upholstery fabrics used.

Parker Knoll has a policy of continual development and improvement, and therefore advises that current specifications should be checked prior to ordering.

Parker Knoll reserve the right to alter specifications and to discontinue models and fabrics without notice.

Due to varying lighting conditions during photography and limitations in digital and printing technology, colours in this catalogue may vary from actual materials. Furthermore, sofa images have been altered to enhance their natural beauty.

Some cushions, rugs and accessories shown in the brochure are not manufactured by Parker Knoll. Some fabrics may not be available on selected models. Please ask in store for further details.

Our Story

1869

Bracklyn Street

In 1869 Frederick Parker created the business that was to become Parker Knoll from his father's factory in Bracklyn Street, London. He took pride in designing and developing the finest furniture using the best of British craftsmanship and, with the help of his sons, developed the business.

1921

Revolutionary Ideas

In 1921 the Parker's met Willi Knoll; a German fighter pilot. His revolutionary ideas to modernize comfort transformed the business. The coiled wire spring system, developed to redefine comfort, remains unchanged in many of our chairs today.

1914

The War Effort

As demand continued to grow the Parker's began manufacturing furniture for Victorian gentry, which later led to furnishing the Palladian lounge of RMS Aquitania during the first world war.

1936

Furnishing the BBC

In the 1930s Parker Knoll chairs were chosen to furnish most of the new BBC headquarters broadcasting house at Portland Place. In 1936, King Edward VIII presented his Empire Day Speech at the BBC sitting in a Parker Knoll chair.

1960

The Swinging 60s

For Parker Knoll the late 1960s were very definitive. The development of motion furniture began alongside iconic designs such as the Merrywood Collection and The Norton Group.

2016

Castlewood, Nottinghamshire

With 147 years of knowledge and expertise, the Parker Knoll brand continues to grow. In 2016 the brand moved to a new purpose built state of the art manufacturing facility in Castlewood, Nottinghamshire. Parker Knoll's new home will help facilitate the brand's evolution in line with continuing to design and develop the best of British Sofas and Chairs that provide the ultimate in comfort.

1996

Number 1 Furniture Brand

Parker Knoll is named The Number 1 Furniture Brand in the UK

1969

The Statesman

With its deep buttoned back and swivel pedestal base, the Statesman Chair was an instant hit during the 60s and 70s, quickly becoming a best seller and a modern status symbol.

2015

Maison

Parker Knoll relaunches the Maison Collection. This new range is targeted at a younger more style-driven consumer.

2019

Railroaded Fabrics

SELECTING A NON-RAILROADED FABRIC

The Isabelle Large Two Seater Sofa and Two Seater Sofa will have a centre seam running through the back, seat and front border.

Isabelle

SELECTING A RAILROADED FABRIC

If a fabric is railroaded, it will state clearly on the back of each fabric in the swatch. A railroaded fabric will have no joins on the back seats.

Please note that railroaded fabrics are not suitable for curtains; please refer to the swatch books in store for further information.

Choosing Leather

It is important to understand the characteristics of leather when choosing to purchase this type of sofa. Leather suites are classic and timeless; the high quality, natural and hard wearing leathers we offer look great and are really easy to care for. It is key to note that leather will move over time and may display traces of the past such as healed scars, insect bites, growth marks and veins. These are all hallmarks of hide and in no way detract from the wearing qualities of leather.

Choosing Fabrics

When choosing a Parker Knoll fabric, it is advisable to think about the environmental and lifestyle factors that may impact upon fabric behaviour.

We recommend that you do not expose your upholstery to long periods of direct sunlight, as this may result in fading. Close and constant exposure to heat can also influence colouration so it is important to consider where in the room your sofa will be placed when choosing fabric.

It is also key to consider the fabric type and its associated behaviours and characteristics. A fabric with a pile direction such as chenilles or velvets may naturally flatten and be influenced by pressure or shade as the fibres change.

Appropriate care of your upholstery will ensure your velvet or chenille furniture looks fabulous and stands the test of time.

All of the fabrics within the Parker Knoll fabric collection are tested for use in a domestic environment.

You will find information regarding the fabric composition on the label on your samples or on the back of each swatch in our in store sample books.

If you have any questions or queries regarding your chosen fabrics please visit a Parker Knoll retailer or contact our customer support team who will be happy to assist you. For more information visit www.parkerknoll.co.uk.

The height of the Winchester and Moseley footstools will vary depending on your choice of leg. Please ask in store for further details.

Arm Caps

Specifically tailored full length arm caps are available as chargeable extras on most models. These arm caps can be made in any fabric within the Parker Knoll collection and are fully lined.

Arm Height

The overall dimensions of the Burghley and Canterbury sofas and chairs are the same. The arm height of the chair is lower than the sofa for optimum seating comfort.

Parker Knoll Upholstery is proud to have been awarded the BSI ISO 9001 QMS certificate. This is your assurance that we at Parker Knoll comply with stringent quality standards. Our products are regularly subjected to independent testing to ensure safety, product performance, and reliability. We have tried to be as accurate as possible in the presentation of information. However, some dimensions shown should be regarded as approximate only, due to the nature of upholstery fabrics used.

Parker Knoll has a policy of continual development and improvement, and therefore advises that current specifications should be checked prior to ordering.

Parker Knoll reserve the right to alter specifications and to discontinue models and fabrics without notice.

Due to varying lighting conditions during photography and limitations in digital and printing technology, colours in this catalogue may vary from actual materials. Furthermore, sofa images have been altered to enhance their natural beauty.

Some cushions, rugs and accessories shown in the brochure are not manufactured by Parker Knoll. Some fabrics may not be available on selected models. Please see the availability chart at the back of a swatch in store for more details.

the story of evolution

[ɛvə'luʃən]

1. A process of gradual, peaceful, progressive change or development.
2. A motion incomplete in itself, but combining with co-ordinated motions to produce a single action.

With our latest collection, **evolution**, Parker Knoll is redefining the art of reclining. **Evolution** features clean lines, cool colours and luxurious finishes, all underpinned by the supreme comfort and engineering excellence Parker Knoll has been renowned for since 1869.

For the past 149 years, Parker Knoll's furniture has evolved with the times, reflecting the best that each age has to offer in everything from fabrics and construction methods to colours and styles. What never changes, however, is our commitment to outstanding quality, design excellence and supreme comfort.

Evolution combines a sophisticated contemporary aesthetic with deep comfort and effortless relaxation, in a unique and stylish reimagining of the recliner. Each sofa range has the option of motion, with sophisticated motion technology and adjustable headrests helping you travel effortlessly from upright to full recline, providing perfect comfort and support in every position.

With three core suites that feature clean, contemporary lines, cool, calm colours and soft, sophisticated weaves, **evolution** lets you express your personal style beautifully. Three standalone accent chairs, in a choice of tactile fabrics and sumptuous Italian leathers, complete the collection.

Sit back, relax. Experience evolution.

“evolution’s high design aesthetic lets you express your personal style beautifully”

Tom White
Parker Knoll Design Director

Evolution was born out of our ongoing commitment to modernise and refine motion furniture.

Parker Knoll created the innovative Easy chair during the early 1890s and went on to revolutionise the industry with the Norton recliner in the 1960s. Now, with our latest collection, our expert designers and master craftsmen have brought motion technology to new heights.

Evolution's powered motion has undergone thousands of hours of rigorous testing, and is designed to transport you seamlessly from upright through to full recline in perfect comfort. This progressive technology is perfectly complemented by **evolution's** clean, contemporary aesthetic.

Comfort is one of Parker Knoll's core founding principles, as important to us today as it was in 1869 when Frederick Parker established the business.

Today our designers and master craftsmen draw deeply on this heritage, whilst employing the most effective modern techniques and materials in our quest to create supremely comfortable contemporary furniture.

Combining deep seats with seamless reclining and expertly handcrafted details, we have ensured that **evolution** will offer you the ultimate comfort experience each and every time you sit.

design 1703

A contemporary update of one of our much loved, iconic designs from the 60s, design 1703 is distinguished by finely detailed stitching on its back, headrest and arms, and a polished chrome tulip base.

Design 1703's high curving back holds you in a warm, nurturing embrace, while the sophisticated rocking mechanism allows the chair to move with you. The co-ordinating footstool features the same tulip base as the chair, and subtly echoes the shape of its cushioned seat.

design 1704

Design 1704 features clean lines, fine back cushion stitching details and a chrome swivel rocker base, perfectly reflecting Parker Knoll's commitment to both great design and superb comfort.

Available in either leather or fabric, design 1704's strong shape makes it ideal as a standalone chair or an accent chair to sit perfectly with the rest of the collection.

statesman

The Statesman chair was hailed as revolutionary when it was launched in 1969. Today, nearly 50 years on, it's as popular as ever, recognised around the world as a design classic.

Offering the same deep levels of comfort as the original, our latest version is manufactured using very similar techniques, and retains renowned design signatures such as the deep button-back and wooden base. The refinements we've made in design and engineering bring Statesman subtly up to date without compromising its iconic status.

choosing leather

It is important to understand the characteristics of leather when choosing to purchase this type of sofa. Leather suites are classic and timeless; the high quality, natural and hard wearing leathers we offer look great and are really easy to care for.

It is key to note that leather will move over time and may display traces of the past such as healed scars, insect bites, growth marks and veins. These are all hallmarks of hide and in no way detract from the wearing qualities of leather.

additional information

choosing fabric

When choosing a Parker Knoll fabric, it is advisable to think about the environmental and lifestyle factors that may impact upon fabric behaviour.

We recommend that you do not expose your upholstery to long periods of direct sunlight, as this may result in fading. Close and constant exposure to heat can also influence colouration so it is important to consider where in the room your sofa will be placed when choosing fabric.

It is also key to consider the fabric type and its associated behaviours and characteristics. A fabric with a pile direction such as chenilles or velvets may naturally flatten and be influenced by pressure or shade as the fibres change.

Appropriate care of your upholstery will ensure your velvet or chenille furniture looks fabulous and stands the test of time.

All of the fabrics within the Parker Knoll fabric collection are tested for use in a domestic environment.

You will find information regarding the fabric composition on the label on your samples or on the back of each swatch in our in store sample books.

If you have any questions or queries regarding your chosen fabrics please visit a Parker Knoll retailer or contact our customer support team who will be happy to assist you. For more information go to www.parkerknoll.co.uk/evolution.

 A CELEBRATION OF FINE DESIGN

150 Years of Great Design

Frederick Parker, the founder of Parker & Sons was born in Shoreditch in 1845. As his father's business grew, the family moved to Bracklyn Street in Islington where Frederick's love of furniture began.

In 1869 Frederick Parker started the business that was to become Parer Knoll. Over the years he built a solid reputation for the development of beautifully handcrafted furniture launching styles and designs that redefined seating in form and function over the course of the 19th century. This led to furnishing the homes of Victorian gentry as well as country homes and public buildings across London. Throughout this time his tale of craft travelled through the eastern and northern streets of London during a period of design revival.

As the brand continued to grow the business moved to High Wycombe where the first new generation recliner and the famous Statesman chair were manufactured.

Collection 150 from Parker Knoll

Drawing on our recently restored Frederick Parker archive, Collection 150 has been designed to celebrate our years of rich heritage as well as our founder's commitment to develop sofas and chairs that are a product of skilled design, high quality, elegant proportions and supreme comfort.

Opposite page:
Hoxton Grand Sofa in Bracklyn Teal

The collection takes specific influence from the 1920s and 30s, a defining period for Parker Knoll, as post war Britain formed. During this time the brand was commissioned by Cunard to furnish all the rooms of the ocean-going liners from the sofas and chairs, to beds and occasional furniture.

Our latest collection is a celebration of this style defining period, combining the Art Deco influences from the 1920s with a contemporary aesthetic to create a collection of finely designed sofas and chairs that offer refined style and an abundance of comfort.

Comprised of two sofa collections, Hoxton and Wycombe, alongside their complementary chairs, Shoreditch and Fitzroy, the range is a celebration of beautiful shape and intricate detail.

To really bring the collection to life, we have once again developed a brand new fabric collection. Working with specialist mills, we have commissioned and created a refined colour palette including contemporary plain weaves combined with cotton velvets and rich textured structures. These fabrics are beautifully accented by designs that have been influenced by artists, fashion, society and architectural elements from the Art Deco period.

Award Winner

We have tried to be as accurate as possible in the presentation of information. However, some dimensions shown should be regarded as approximate only, due to the nature of upholstery fabrics used.

Parker Knoll has a policy of continual development and improvement, and therefore advises that current specifications should be checked prior to ordering.

Parker Knoll reserve the right to alter specifications and to discontinue models and fabrics without notice.

Due to varying lighting conditions during photography and limitations in digital and printing technology, colours in this catalogue may vary from actual materials. Furthermore, sofa images have been altered to enhance their natural beauty.

Some cushions, rugs and accessories shown in the brochure are not manufactured by Parker Knoll. Some fabrics may not be available on selected models. Please see the availability chart at the back of a swatch in store for more details.
